Grants in Higher Education: A Primer and Recent Topics

Webinar

Many institutions of higher education rely on federal grants to support students, research, and institutional initiatives. As a condition of receiving these grants, the federal government imposes extensive reporting and compliance requirements. Recently, however, the federal government has altered the landscape for grant recipients.

We invite you to join us for a special 90-minute webinar on April 8, 2025, where we will explore federal grant compliance for higher education institutions. This session will provide a foundational overview of higher education grants and the grant process while highlighting key legal updates affecting institutions. Additionally, the webinar will address compliance and enforcement under the current administration, offering strategies for responding to adverse agency actions and proactive steps institutions can take to safeguard their funding.
