Welcome to 2025: Introducing Our New Website!

As we kick off the new year, we are thrilled to unveil Thompson Coburn's new website – a dynamic, creative, and business-minded hub that reflects who we are and how we work.

Our website is more than a refresh – it's a reimagining. Designed with our Total Commitment to client service in mind, it showcases our deep experience and innovative spirit while highlighting what makes us unique: a team that truly enjoys working together and solving your toughest challenges, with a strong firm culture and spirit of collaboration.

What's New?

- **Fresh Look and Feel:** A new, modern color palette, bold photography brimming with personality, and intuitive navigation make exploring our site a breeze.
- **Updated Content:** See more of our people, our practices, our culture, and the creative solutions we bring to the table.
- **Enhanced Features:** Streamlined tools for generating PDFs, improved search functions, and updated profiles of our attorneys and professionals, to deepen your understanding of who you're working with.

These updates are all made with the goal of showing visitors to our site who we are and how we can partner with them. Our culture is transparent, down-to-earth, inclusive, and business-minded. Whether you need us to navigate a complex transaction or resolve a dispute, we bring together the right team, with the right knowledge, at the right levels. With a "one team" approach, our collaboration is visible at every step, leveraging better results for clients.

"Our new website represents a significant step forward in our evolution and innovation," Thompson Coburn Chair Chris Hohn said. "As a national firm dedicated to delivering best-in-class services, this platform reflects our commitment to shaping our continued growth by providing an exceptional user experience for our clients, partners, and team members alike."

We are proud to have collaborated with the team at Content Pilot on the design and development of the website and with Gittings on photography. Their work with our internal team to help tell the story of our firm and its people was instrumental to the project.

To all our website visitors: We encourage you check out the new site and get to know us better. We're ready to roll up our sleeves in 2025 and beyond to solve problems and find opportunities together.
