Dean's List

I assist real estate tax assessment attorneys in the administration and management of more than 4,500 properties at county and state levels of administrative relief, as well as cases pending in the Circuit Court of Cook County.

overview

Jamie Carvell is a key player in securing property tax refunds for clients. She meticulously researches facts and drafts affidavits and releases required by the Cook County treasurer. Her efforts have resulted in significant refunds for banks and receivers.

Beyond refunds, Jamie also assists with securing real estate tax exemptions and local incentives for qualified taxpayers.

The firm's tax assessment department representation includes properties in Cook County and the surrounding suburban counties as well as downstate Illinois and other neighboring states. The caseload includes a variety of properties including vacant land, single family homes, apartment buildings, income producing and owner-occupied commercial and industrial properties, hospitals, medical complexes, condominiums and cooperatives.

in my free time

Spoiling my two dogs - rescued mixed-breed terriers - fills up most of my daily spare time, and I love spending time with my nieces and nephews. My husband has recently turned part of our yard into a modified bocce court, and we created our own rules for "Rainbow Bumper Bocce," with Chicago weather dictating the frequency of play!
