### ADMISSIONS

Missouri

I bring substantial perspective to complex tax matters, pairing my legal knowledge with over a decade of tax experience as a CPA.

#### overview

As a member of the tax practice group, Jeremy Jones has substantial experience in federal and state income tax and sales/use tax. He has also assisted clients with other tax matters from state and local tax to international tax. He clearly communicates tax information in easily understandable terms cultivated from working alongside business stakeholders from CFOs and controllers to marketing and human resources personnel.

Jeremy holds a CPA license and practiced as a tax accountant for over a decade before joining the firm. His experience spans private equity startups to large publicly traded companies.

#### in my free time

Aside from spending considerable time with my four boys, I enjoy repairing, restoring, and racing cars. Although I'm currently enjoying restoring a C4 Corvette, I still miss my 1966 Ford Fairlane and endurance-race-prepped e36 BMW.
