I provide strategic legal counsel to health care clients on a broad spectrum of regulatory issues.

#### overview

Kevin specializes in navigating complex health care regulatory landscapes, including federal and state licensing and certification, Medicare and Medicaid billing and reimbursement, Stark Law, Anti-Kickback Statute, HIPAA, and provider operations.

He adeptly assists clients in negotiating critical agreements such as managed care contracts, professional service agreements, and vendor deals.

Well-versed in compliance issues and concerns of large health systems as well as individual providers, Kevin supports clients with government payor compliance, provider contracting, internal policy development, and compliance investigations. He also performs due diligence reviews for health care clients in proposed mergers, acquisitions, and joint ventures.

#### in my free time

When I'm outside of STL, I enjoy exploring new cities by foot and kayaking Ozark rivers. When I'm in STL, I like to spend my free time playing guitar and attending as many concerts as I can.
